

Phase 2 Updated EER Diagram
CS 6400 - Spring 2017
Team 019

1. Modifications(including those based on Phase 1 feedback):
2. Added surrogates.
3. Made rooms and bunks available attributes of shelters
4. Users total participation in relation between users and sites
5. Participation constraint between food bank and items and added cardinality.
6. Removed the relation between client and client services and made client log an entity.
7. Total participation of sites in relation between sites and services.
8. Changed "Request" relation from "User" -> "Foodbank" to "User" -> "Item"
9. Added key for services.
